

What is claimed is:

1. A colloidal silica slurry wherein hydrogen peroxide from 5 to 100 ppm is added.
2. The colloidal silica slurry as claimed in claim 1, wherein pH is from 6.0 to 8.0.
3. The colloidal silica slurry as claimed in claim 1, wherein said colloidal silica is a lowered metal silica produced from silicate ester.
4. The colloidal silica slurry as claimed in claim 2, wherein said colloidal silica is a lowered metal silica produced from silicate ester.
5. The colloidal silica slurry as claimed in claim 1, wherein a metal content of said colloidal silica is 1 ppm or less.
6. The colloidal silica slurry as claimed in claim 2, wherein a metal content of said colloidal silica is 1 ppm or less.
7. The colloidal silica slurry as claimed in claim 3, wherein a metal content of said colloidal silica is 1 ppm or less.
8. The colloidal silica slurry as claimed in claim 4, wherein a metal content of said colloidal silica is 1 ppm or less.
